

Everybody needs a song

Music: Walter Dionisie
Lyrics: Ralph Murphy

Everybody needs a song
If the world turn off the light
And the dark is coming on
It'll take you through the night

There's a melody inside,
Maybe you can't hear the words,
But every time somebody cries,
There's a special sound it hears

Refren:

Everybody needs a song to sing
If the world turn off the light,
Like a friend in need,
It'll take you through the night

BRIDGE :

It's a part of you and me
When you'll sing it, you will see
That a song can set you free
